

Fun Factory Bi Stronic Embrace - Rabbit Thrusting Vibrator

SKU : BI-STRONIC-EMBRACE-RABBIT-PULSATEUR-VIBR-XDL7 · Brand : JOYSTOYS PARIS

The Bi Stronic Embrace is a premium rabbit vibrator from Fun Factory, engineered to deliver an unprecedented automated thrusting experience thanks to the brand's patented Stronic technology. Unlike a standard rabbit vibrator where only the motor vibrates, the main shaft of this device performs genuine back-and-forth thrusting motion that mimics penetration, while its ergonomic ear-shaped clitoral arm delivers targeted vibrations for simultaneous dual stimulation of the vagina and clitoris. Powered by two strong, whisper-quiet motors, the toy offers six thrusting modes and six vibration modes that can be freely combined, letting every user build her own rhythm of pleasure, from gentle sensations to the most intense. Its subtly curved tip is shaped to match the G-spot for precise, firm stimulation, while its soft, silky silicone surface with a textured handle grip ensures a pleasant feel against the body and a secure hold in hand. The signature LOOP-style handle found throughout the Stronic line allows for a stable, comfortable grip even during extended or intense sessions, reducing wrist fatigue and enabling true hands-free use. Fully waterproof to IPX7 standard, the product is easy to clean and safe to use in the shower or bath. It recharges via USB cable, providing reliable battery life for repeated use - a strong selling point for retailers who prioritize products without disposable batteries. Fun Factory backs this model with a 25-year manufacturer warranty, a mark of quality and durability that reassures both retailers and end customers and strengthens the in-store sales pitch. Made from body-safe, medical-grade silicone that is phthalate-free, non-porous and easy to disinfect, the Bi Stronic Embrace meets the body-safety standards expected in the premium intimate wellness market. A versatile, well-known bestseller, it's an ideal addition to any rabbit vibrator, G-spot pulsator, or Fun Factory section in specialty stores or B2B e-commerce platforms.

Highlights

- Automated thrusting motion combined with simultaneous clitoral stimulation
- Patented Stronic technology, exclusive to Fun Factory in the premium sex toy market
- Two powerful motors for independent, combinable vibration and thrusting functions
- Six thrusting modes and six vibration modes for countless combinations
- Curved tip designed for targeted G-spot stimulation
- Premium body-safe silicone, soft to the touch and phthalate-free
- Fully waterproof (IPX7) for shower or bath use
- USB rechargeable, no batteries required
- Ergonomic LOOP handle for a stable grip and true hands-free use
- 25-year Fun Factory manufacturer warranty, a strong trust signal for retailers

Technical specifications

Brand	Fun Factory
Collection	Stronic - Bi Stronic Embrace
Product type	Thrusting rabbit vibrator
Material	Premium phthalate-free, medical-grade silicone
Functions	Automated thrusting + simultaneous clitoral vibration
Thrusting modes	6 modes
Vibration modes	6 modes
Motors	2 powerful, quiet motors
Waterproof rating	IPX7 (fully waterproof)
Power source	USB rechargeable
Color	Fuchsia pink
Grip	Ergonomic LOOP handle
Manufacturer warranty	25 years
Recommended use	Adult use only (18 years and over)

Box contents

- 1x Fun Factory Bi Stronic Embrace
- 1x USB charging cable
- 1x instruction manual

Usage tips

Fully charge the device before first use with the included USB cable. Use only water-based lubricant compatible with silicone to protect the material and ensure smooth glide. Start with the gentlest settings before exploring higher intensities and thrusting/vibration combinations. The LOOP handle lets you hold the toy securely while the Stronic technology does the thrusting for you, delivering effortless stimulation and true hands-free use. Make sure the charging port cover is fully closed before any use in water.

Care instructions

Clean the device before and after each use with warm water and mild soap, or a dedicated silicone toy cleaner. Allow it to dry completely before storing in a storage pouch, away from dust and direct light. Avoid contact with silicone-based lubricants, as they can degrade the material over time.

Safety information

Made from medical-grade, phthalate-free silicone that is non-porous and easy to disinfect. Waterproof to IPX7 standard, it can be safely submerged provided the charging port is properly closed. Intended for vaginal/external use only, and

should be used with water-based lubricant exclusively. For adult use only. Do not expose to extreme heat sources or harsh solvents.
