

Big Boss - Fun Factory XL Realistic Vibrator

SKU : BIG-BOSS-VIBROMASSEUR-XL-REALISTE-38MT · Brand : JOYSTOYS PARIS

JOYSTOYS PARIS, your trusted wholesale supplier of sex toys for professionals, presents the Big Boss by Fun Factory, an XL vibrator that truly lives up to its name. With a total length of 9.25 inches, a generous girth, and a realistic shape, it's designed for customers seeking bold sensations and already accustomed to larger sizes.

This model stands out with 6 speeds and 6 vibration patterns, letting users easily adjust the intensity and rhythm of stimulation. A travel lock prevents accidental activation during transport, a reassuring feature your customers will appreciate. The pronounced head and subtle ridges along the shaft are designed for targeted G-spot stimulation, while the XL format, with a diameter of 1.6 to 1.8 inches, delivers a satisfying sense of fullness.

The rounded LOOP handle ensures a secure, comfortable grip, even with lubricant applied, a thoughtful design detail that makes handling easier and reduces slippage during play. Another standout feature is the FlexiFUN™ technology, which gives the shaft natural flexibility, allowing it to move with the body rather than staying rigid like a traditional toy. This flexibility makes changing positions easier and allows for adjustable penetration angles, creating a more adaptable experience overall.

The Big Boss is best suited for customers already comfortable with penetration and drawn to larger sex toys. It is not designed for anal use, an important point to communicate at the point of sale or on your online product page.

Its rechargeable battery provides 40 to 120 minutes of runtime depending on intensity, with a built-in charge indicator. Fully waterproof (IPX7 rated), it can be enjoyed in the shower or bath, a feature your customers will value for added versatility.

To support sales of this product, we recommend always offering a water-based lubricant compatible with silicone alongside it, ensuring a smoother, more comfortable experience while protecting the toy's material.

Highlights

- XL size at 9.25 inches total length with a 1.6 to 1.8 inch diameter for intense sensations
- 6 speeds and 6 vibration patterns for easy, customizable stimulation
- FlexiFUN™ technology: a flexible shaft that moves naturally with the body
- Pronounced head and ridges designed for G-spot stimulation
- Ergonomic LOOP handle for a secure grip, even with lubricant
- Built-in travel lock to prevent accidental activation
- IPX7 waterproof rating, safe for shower or bath use
- Rechargeable battery with charge indicator, 40 to 120 minutes of runtime

Handle	Ergonomic non-slip LOOP grip
Travel Lock	Yes
Recommended Lubricant	Water-based
Weight	12.1 oz (344 g)

Box contents

- 1 Big Boss Fun Factory vibrator
- 1 instruction manual

Usage tips

For the best grip, use the LOOP handle, which stays stable even when lubricant is applied. The flexible FlexiFUN™ shaft allows users to adjust the penetration angle depending on position: advise your customers to start with the gentler speeds before exploring the more intense patterns. Generous use of a water-based lubricant is recommended for optimal comfort and lasting glide on the silicone surface. This product is not designed for anal use.

Care instructions

Clean the vibrator before and after each use with warm water and mild soap, or a specialized silicone toy cleaner. Dry thoroughly before storing in a clean, dry place, away from direct sunlight and dust. Avoid prolonged contact with other silicone toys to preserve the material. Do not use silicone-based lubricant, as it may damage the product's surface.

Safety information

This vibrator is not designed for anal use. Only use a water-based lubricant compatible with silicone to prevent damage to the material. The charging cable is not included in the box. Make sure the device is completely dry before recharging.

The product is IPX7 waterproof, but the charging port should never be submerged.
