Usage tips

Adjust the collar to a comfortable fit before use, allowing enough room for two fingers to slide between the collar and the neck. Communicate boundaries and safe words with your partner before beginning any BDSM activity. The ergonomic handle allows for confident directional control—use gentle, deliberate movements to guide your partner safely.

Care instructions

Wipe the leather collar and leash clean with a damp cloth after each use. Avoid soaking in water, as this may damage the leather and metal hardware. Condition the leather periodically with a leather-safe conditioner to maintain suppleness. Store in a cool, dry place away from direct sunlight to prevent cracking or discoloration.

Safety information

For adult use only. Always practice consent and communicate safe words with your partner before use. Do not use the leash or collar in ways that restrict breathing or blood flow. Inspect the leather and hardware regularly for wear and tear. Discontinue use if any component shows signs of damage.
