

Fuchsia AV Wand Vibrator

SKU : JT-WAND-AV-FUCHSIA · Brand : JOYSTOYS PARIS

This large format AV wand vibrator in a striking fuchsia finish stands out with its wide, flexible head and ergonomic handle that delivers a secure, comfortable grip. Multiple vibration speeds and patterns are controlled directly from the handle, giving end users full flexibility over their experience. Crafted from medical-grade silicone, this wand is a strong addition to any adult retail lineup, spa or wellness studio inventory, and is well suited for both display and hands-on demonstration in professional settings.

Highlights

- Flexible, articulated head for targeted pressure and coverage
- Ergonomic handle designed for extended comfortable use
- Multiple intensity levels and vibration patterns
- Body-safe medical-grade silicone construction
- Eye-catching fuchsia finish that stands out on retail shelves
- Suitable for spa, wellness studio, and adult retail environments

Control Type	Handle-mounted multi-speed and multi-pattern controls
Power Source	Rechargeable, USB cord included
Water Resistance	Splash-resistant for easy cleaning
Noise Level	Whisper-quiet motor

Box contents

- 1 x Fuchsia AV Wand Vibrator
- 1 x USB charging cable
- 1 x Instruction manual

Usage tips

Apply a water-based lubricant to the silicone head to enhance comfort and glide. Start on the lowest intensity setting before moving to higher speeds or patterns. The flexible head allows for angled positioning, making it easy to target specific areas without repositioning the entire handle.

Care instructions

Clean before and after each use with a toy cleaner or mild soap and warm water. Since this wand is splash-resistant rather than fully submersible, avoid soaking the handle or charging port. Dry thoroughly and store in a cool, dry place away from direct sunlight. Compatible with water-based lubricants only; silicone-based lubricants may degrade the material over time.

Safety information

Made from body-safe, phthalate-free medical-grade silicone. For external use only. Not recommended for use in water beyond light splashes. Keep away from children. Inspect the unit before each use and discontinue use if any damage to the silicone or handle is observed.
