Usage tips

Adjust the collar snugly but comfortably before use, ensuring two fingers can fit between the collar and the neck for safety. Always establish a safe word with your partner before beginning any bondage play. The leash and chain are best used for guided movement and light restraint rather than sudden or forceful pulls.

Care instructions

Wipe the leather clean with a damp cloth after each use and allow it to air dry fully before storing. Avoid prolonged exposure to direct sunlight or high humidity, which can cause the leather to crack or fade. Store flat or hung in a cool, dry place away from other metal accessories to prevent scratching the gold-tone chain.

Safety information

For adult use only. Ensure the collar fits comfortably and does not restrict breathing. Never leave a partner unattended while wearing the collar or during leash play. Discontinue use immediately if skin irritation, numbness, or discomfort occurs. Not suitable for use during unsupervised play or with individuals under the influence of alcohol or drugs.
