Usage tips

Generously apply a water-based or silicone-based lubricant to the plug and the intended area before insertion. Proceed slowly and gradually for optimal comfort. The wide base and decorative crystal ensure a stable hold and prevent full insertion, guaranteeing safe use.

Care instructions

Clean the plug before and after each use with warm water and mild soap, or with a specialized sex toy cleaner. Dry thoroughly before storing in a clean, dry place away from dust. Avoid abrasive products that could dull the metallic finish.

Safety information

For adult use only. As metal is a non-porous material, it does not harbor bacteria and is suitable for prolonged use provided it is cleaned regularly. Always use a compatible lubricant to avoid discomfort. Do not use in case of skin injury or irritation.
