

JOYSTOYS PARIS Prestige Automatic Rotating Masturbator

SKU : FJB68 · Brand : JOYSTOYS PARIS

The Prestige Automatic Rotating Masturbator by JOYSTOYS PARIS is a next-generation male pleasure device engineered to deliver multi-stimulation sensations through a motor combining three distinct movements: 360° rotation, telescopic thrusting, and vibration. This tripartite technology lets users explore a wide range of sensations, from gentle progressive massage to intense rhythmic stimulation, with 8 rotation and stretching modes plus 10 independent vibration modes.

The fully transparent inner sleeve reveals a carefully engineered interior texture shaped like a mouth, featuring soft nubs and successive ridges that hug the contours for a complete, enveloping massage. The soft TPE-type material provides a realistic skin-like feel, gentle touch, and pleasant elasticity that naturally adapts during use.

The ergonomic handle-shaped housing, with its compact grip and soft-touch coating, ensures comfortable and discreet handling, whether used solo or as part of couples' play. Controls are grouped on an intuitive touch panel that lets users cycle through rotation, stretching, and vibration modes with just a few taps. The device recharges easily via USB, compatible with a wall adapter, computer, power bank, or car charger, ensuring optimal battery life and cable-free use once charged.

This product is ideal for specialty shops and professional resellers looking to offer their customers a premium, technically advanced, and differentiated item in the automatic male masturbator category, a fast-growing segment in the connected sex toy market.

Highlights

- Triple stimulation: 360° rotation, telescopic thrusting, and vibration
- 8 combined rotation and stretching modes plus 10 vibration modes
- Transparent inner sleeve with mouth-like textured interior for realistic massage
- Soft TPE-type material, gentle to the touch and pleasantly elastic
- Compact ergonomic housing with intuitive touch controls
- Versatile USB charging: adapter, PC, power bank, or car charger
- Compact, discreet design, easy to store and transport

Technical specifications

Sleeve material	Soft TPE, latex-free
Housing material	Soft-touch ABS
Total length	25.4 cm (10 in)
Sleeve diameter	6.8 cm (2.68 in)
Opening diameter	4 cm (1.57 in)
Weight	363 g (12.8 oz)
Rotation and stretching modes	8 modes
Vibration modes	10 modes
Power supply	USB-rechargeable battery
Charging compatibility	Wall adapter, PC, power bank, car charger
Water resistance	Not submersible, splash-resistant only

Box contents

- 1 automatic rotating masturbator with motor housing
- 1 TPE inner sleeve
- 1 USB charging cable
- 1 multilingual instruction manual

Usage tips

Recommend that customers apply a water-based lubricant before each use for optimal glide and comfort. Suggest starting with the gentlest rotation and vibration modes before gradually increasing intensity to personal preference.

The removable sleeve makes post-use cleaning quick and easy.

Care instructions

Clean the inner sleeve with warm water and mild soap or a dedicated toy cleaner after each use, then let it air dry completely before reassembling. Do not submerge the motor housing in water; wipe it only with a slightly damp cloth.

Store the device in a dry place, away from direct sunlight and dust.

Safety information

For adult use only. Do not use if you have a known allergy to TPE. Do not submerge the device in water. Avoid mineral oil or silicone-based lubricants, which may damage the sleeve material; use a water-based lubricant instead. Keep out of reach of children.
