Usage tips

For best results, apply a water-based lubricant before use to enhance comfort and glide. Start with the lowest intensity setting and gradually increase to find the preferred vibration pattern and speed. Ensure the device is fully charged before first use.

Care instructions

Clean before and after each use with warm water and a mild antibacterial toy cleaner. Dry thoroughly with a soft, lint-free cloth before storing. Store in a cool, dry place, ideally in the original box or a dedicated storage pouch, away from direct sunlight and other silicone toys to prevent material degradation.

Safety information

Made from body-safe, phthalate-free premium silicone. Only use with water-based lubricants, as silicone-based lubricants may damage the material. Do not immerse the charging port area unless the device is properly connected and sealed. Keep out of reach of children. Intended for adult use only.
