

CHILIPINK Sexy Nurse Zip-Up Bodysuit with Garter Straps

SKU : R81117 · Brand : CHILIPINK

This CHILIPINK nurse costume bodysuit puts a fresh spin on a roleplay classic with a flattering near-body cut and polished finishing touches. Crafted from stretch fabric with a satin-like white finish, it stands out with a notched halter-style collar, a front zip closure that frames the neckline and slips off in one smooth motion, and an open back secured with a red satin bow. The waist is accentuated by a wide red belt and a heart-shaped pocket embroidered with a cross, a faithful nod to the classic nurse uniform. The garter straps are built directly into the bodysuit and end in clips decorated with a red satin bow stamped with a cross, ready to hold stockings or hold-ups. The stretch fabric hugs curves and suits a range of body types, from S to XL depending on the size chosen, including fuller figures as shown in the product photos. The set is rounded out with a nurse cap embroidered with a red cross, a decorative faux stethoscope with a red cord, and an elastic armband featuring a crossed heart design, delivering a complete, ready-to-sell look for storefronts and online listings alike. This item is designed for professional resellers of fine lingerie, sexy costumes and adult novelty items looking to add a standout roleplay piece that photographs beautifully and feels comfortable to wear.

Usage tips

Wear on its own or pair with fishnet stockings and heels to complete the sexy nurse look, as suggested in the product photos. Stockings shown in some images are a styling suggestion only and are not included in the set; check the box contents for confirmation. The stethoscope and armband are decorative, non-functional accessories intended purely for roleplay.

Care instructions

Hand wash in cold water is recommended to preserve the fabric's stretch and shine. Do not tumble dry; lay flat to dry away from direct sunlight. Avoid ironing directly over trims and embroidery.

Safety information

This is a textile costume item, not a medical product: the stethoscope and accessories are purely decorative and should never be used as actual medical devices. Check fabric composition if you have sensitive skin or known allergies.
